

Spring Term Curricular Letter

Lerryn Class

Stone Age Man

The children of Lerryn Class specifically chose this exciting topic of discovery. They will be looking at evidence from the Stone Age and seeing where the Stone Age fits into history. They will look at the animals that have become extinct and find examples of endangered species today. There will be a chance to explore the hunter gatherer lifestyle and do some foraging of their own in our local neighbourhood. Role play will be in a classroom cave! They will study how this lifestyle progressed into the agriculture that we know today and also discover that tribes in equatorial and Polar Regions still have a very hunter / gatherer style of living. They will look at the basic human needs for survival and identify plants and animals in their local habitats; looking at how simple food chains develop. ICT research will be directed at Stonehenge with discussions and practical activities into how the stones got there, and how were they lifted? The children will do their own cave paintings on rocks and use charcoals and pastels to replicate Stone Age discoveries.

For maths we follow the 2014 National Curriculum - details can be found on our website.

In RE we follow the Cornwall Agreed Syllabus.
