FACTS ABOUT AFRICA

Africa is bigger than Europe and has a bigger population.

Look at the difference

It has the Nile running through it. One of the biggest rivers in the world

Look at the size of it.

BOTSWANA

Botswana is one of the **land locked** countries of Africa.

The Kalahari Desert covers 70% of it, only leaving 30% for crops. The climate is dry and has many **droughts**, meaning it is difficult to grow crops .

The population is sparse, only 2,000,000 people in a **vast** land.

Landscape

Africa is a **vast** country. The landscape is dry and humid. The droughts are frequent and as deadly as a gun.

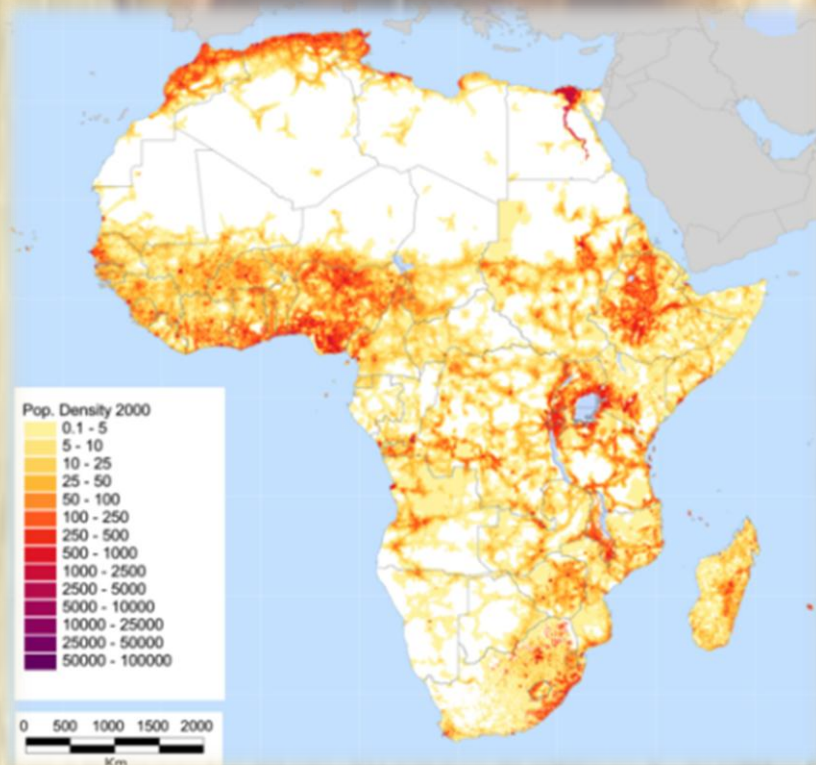

But the savannah is a beauty of life; leopards, lions and crocodiles are the kings of the planes.

The Limpopo river divides south Africa and Botswana. And flows into the Indian ocean.

Environment

The environment includes many types of grass and a vast number of animals like antelope, boars and lions roaming through the lands.

The **heat** over there is boiling and it can kill.

Glossary

Vast- this means big

Drought- lack of water

Heat- how hot it is or the temperature

Land locked- this means that the country is surrounded by land and you cannot get to it by boat.
