

# Scott's Antarctic Adventure

## By Sarah And Danny

# Scott's Arrival

A cold furious wind greeted them to the frozen landscape of Antarctica. They anchored down the Terra Nova carefully so the katabatic winds wouldn't blow her away.

# The Beginning of the Journey

They set off with hopeful hearts for the long journey ahead. With them they had : 10 ponies, 22 dogs and 6 people. They almost always were hopeful [in the expedition]. Sixty days later they were still walking, but a bit tired!

# They Reach Antarctica!

They reach the Antarctic pole but to their sorrow they could see the Norwegian flag. Sadly they trudged back through the brutal weathers, blizzards, storms and rough weather.

# The Blizzard!

The storms blew around them giving them terrible frost bite on their feet which made it hurt to walk. Evans collapsed and couldn't walk. 12:30 AM he died

# Oates' Death

Oates got bad frostbite and couldn't cope so he said: "I'm just going out side and I may be some time." They never saw him again . Now there were only three people in the gang.

# Scott's Death!

Scott and his companions died from exhaustion, starvation and extreme cold.
